Crop Insured
All corn grown in the county on insurable acreage is insurable if:
- Premium rates are provided either as grain or silage; and
- You have a share.
The silage harvest price equals the projected price.

Counties Available
See your state’s actuarial documents at: webapp.rma.usda.gov/apps/actuarialinformationbrowser2014/CropCriteria.aspx for insurable counties. Corn may be insurable in other counties by written agreement if specific criteria are met. Contact an insurance agent for more details.

Causes of Loss
You are protected against the following:
- Adverse weather conditions, including natural perils such as hail, frost, freeze, wind, drought, and excess precipitation;
- Failure of irrigation water supply, if caused by an insured peril during the insurance period;
- Fire, if caused by an insured peril during the insurance period;
- Insect damage and plant disease, except for insufficient or improper application of control measures; or
- Wildlife.

Insurance Period
Insurance coverage begins on the later of the date we accept your application or the date when the crop is planted, and ends with the earliest occurrence of one of the following:
- Total destruction of the crop;
- Harvest of the unit;
- Final adjustment of a loss;
- Abandonment of the crop;
- October 20 for silage; or
- December 10 for grain.

Important Dates
Sales Closing Date - NC …………… February 28, 2014
Sales Closing Date - All Others ……… March 15, 2014
Acreage Reporting Due ………………… July 15, 2014
Final planting dates vary by county. Consult your agent or for more information see: www.rma.usda.gov/tools/.

Reporting Requirements
You must file a report of planted acreage with your crop insurance agent by the acreage reporting date. Since acreage reporting dates vary by crop and county, consult your agent or for more information see: www.rma.usda.gov/tools/.

Duties in the Event of Damage or Loss
- Protect the crop from further damage by providing sufficient care;
- Notify your agent within 72 hours of your initial discovery of damage (but not later than 15 days after the end of the insurance period); and
- Leave representative samples intact for each field of the damaged unit.

Coverage Levels and Premium Subsidies
The premium subsidy percentages and available coverage levels are shown below. Your share of the premium will be 100 percent minus the subsidy amount.

Catastrophic Risk Protection (CAT) coverage is fixed at 50 percent of your average yield and 55 percent of the price election. The cost for CAT coverage is an administrative fee of $300.

Price Elections
The Commodity Exchange Price Provisions (CEPP) contains information necessary to derive the projected price and the harvest price for the insured crop. The projected price is used to calculate the premium, replant payment and

This fact sheet gives only a general overview of the crop insurance program and is not a complete policy. For further information and an evaluation of your risk management needs, contact a crop insurance agent.
any prevented planting payment. The harvest price will be used to value production-to-count under the Revenue Protection and the Revenue Protection with Harvest Price Exclusion plans. The CEPP includes the price discovery period, release dates, board of trade used, and additional pricing information. Talk to your agent, or for more information see: www.rma.usda.gov/tools/price discovery.html.

Coverage Options

- **Yield Protection** - provides protection against production losses.
- **Revenue Protection** - provides protection against loss of revenue due to production loss, price decline or increase, or combination of both.
- **Revenue Protection with Harvest Price Exclusion** - provides revenue protection based on the projected price only.
- **Trend Adjusted (TA) Yield Option** - adjusts yields in Actual Production History (APH) databases to reflect increases in yields through time in the county. Trend adjustments are made on each eligible yield within a qualifying APH database based on the county’s historical yield trend that is provided in the county actuarial documents. Check with your insurance agent for available TA practices.

Insurance Units

Basic, optional, enterprise, and whole farm unit structures are available in corn program counties. Premium discounts apply for basic, enterprise, and whole farm units. Additional subsidy is available for enterprise and whole farm units. Yield protection is not available for whole farm unit structure.

Late and Prevented Planting

These provisions provide protection on acreage planted after the final planting date or that cannot be planted. Consult a crop insurance agent for details.

Loss Example

Assume corn with an approved yield of 90 bushels per acre, 75-percent coverage level, $5.65 projected price, $4.39 harvest price, and 40 bushels produced. For Revenue Protection, the insurance guarantee is equal to the production guarantee multiplied by the greater of the projected price or the harvest price. In this example, the Revenue Protection harvest guarantee is $381.38 (67.5 bushels per acre guarantee multiplied by $5.65 projected price).

Where to Buy Crop Insurance

All multi-peril crop insurance, including CAT policies, are available from private insurance agents. A list of crop insurance agents is available at all USDA service centers and on the RMA website at: www3.rma.usda.gov/apps/agents/.
